**LET'S MAKE
YOUR PEOPLE
BRILLIANT.**

Allow us to introduce ourselves

Hey there!

For over two decades, starting back in 2000, Firebrand has been at the forefront of digital training, always growing and changing with the times.

At Firebrand, we're all about making your people brilliant and making our training an extraordinary opportunity for your business.

Who are Firebrand?

With more than 23 years under our belt in providing Digital Product and Certification training with an impressive list of different vendors, and OFSTED grade 2, we're the real deal when it comes to digital skills.

We're empowering candidates to level up their digital skills and jump into super rewarding careers. Plus, we've got a whopping 17 apprenticeship standards and a mind-blowing 1800+ commercial digital products.

At our core, we're all about delivering top-tier training that's not only swift but also thorough, fitting right into the real-world needs of IT and digital pros at every career crossroad.

We've worked hard to strike a sweet balance between giving our learners hands-on job experience while also serving up well-structured off-the-job training that's tailor-made for specific vendors.

The Firebrand team has over 100 dedicated apprenticeship experts. They handle everything from getting your apprentices enrolled, setting up and customising your programme, keeping tabs on progress, all the way to guiding your team through the crucial End Point Assessment (EPA) and celebrating their completion!

But we don't stop there. Our close-knit relationship with our EPA companies means we're constantly boosting the quality of resources and assignments. So, when it's EPA time, our learners are ready to nail it.

We put our money where our mouth is, investing in every little nook and cranny of what we offer. Our tight-knit bond with awarding organisations, their eagle-eyed External Quality Assurers (EQAs), and our EPA partners ensures our training doesn't just meet but exceeds your expectations.

What's on the Apprenticeship menu?

A Firebrand apprenticeship combines real-world skill-building with coveted vendor certifications including CompTIA and Microsoft. Plus our relationship with BPP means you can take your apprentices all the way through to degree level!

Your place or ours?

Whether you want us to come to you, or you come to us, there's a Firebrand delivery mode to suit and with our locations across the globe, it's never been easier.

Residential learning

Our residential centre in Wyboston is designed to provide distraction free, immersive training and boasts 75 en-suite rooms for your apprentices and of course we'll keep them well fed and watered with all meals, snacks and drinks included. Our 50 seat testing rooms make exams a breeze, and training in our purpose built cyber suite has never been easier.

Online instructor lead learning

Of course, in the age of Zoom and Teams calls being regular occurrences, we're also well equipped to deliver remotely with our online instructor led learning. We know that you might wonder if this option leaves your learners feeling a little out of sync, but our seamless approach makes sure that everyone gets involved. We have high grade audio and visual set up in our classrooms so online learners feel like they're in the classroom with our tutors, they'll also be able to take part in live group chats and discussions as well as having a live view of our instructor including whiteboards and any other interactive tools!

Anywhere you like

In the UK we have regional hubs nationwide, from Manchester and Leeds down to Birmingham and further down to London! All of our hubs have the same high quality technology, workspaces and facilities, so wherever your learners are they're still getting the same great training.

Our presence across Europe means that wherever you are, we are. So whether that's Denmark, Sweden, Germany or the Netherlands we'll meet you there.

Your fastest way to learn. Why wait?
